

Scaffolding User

Safety Council Solutions - Program Evaluation Form

CONTRACTOR NAME: _____

DATE: _____

ITEM NO.	CITATION REFERENCE	DESCRIPTION	COMMENTS
Scaffolding User			
1	1926.454 Training	Does the program address training of all employees that work on scaffolds? Does the program address who is the trainer?	Employer is required to train all employees regarding hazards by "qualified" persons.
2	1926.454 (a) Training Program Content	At a minimum, the training program must address hazards (fall, electrical, falling objects, fall protection, use, load capacity). Are these items addressed? Is re-training addressed for inadequacies or changes?	Basic safety information must be provided prior to use. When conditions change, must re-train.
3	1926.451(f)(3) Inspection	Does the program address inspection of system prior to use and periodically by Competent Person?	Competent person must insure scaffolds are safe prior to and during use before each work shift.
4	1910.145(d)(2)(4)(6); 1926.200(b)(2)(c)(2) (3)(e) Tags	Does the program address mandatory tags for defects found? Is an example provided? Are employees instructed in complying with tags?	Unsafe equipment or conditions must be tagged out by Competent Person, and must be complied with. Examples of tagging system must be provided.
5	1926.451(f)(7) Modifications	Does the program address modifications by non-qualified employees? Is disciplinary action for non-qualified modifications mentioned?	Only qualified and competent personnel are allowed to modify scaffolding systems. Non-qualified personnel may create more hazards.

Disclaimer: The information contained in these forms, questionnaire and monitoring procedures is provided as written guidance to assist contractors in complying with the OSHA regulations and/or operator requirements. SCS, the operators who participated in the development of this program and their employees disclaim all warranties both express and implied. The information presented here will give contractors a reference document, which should be used as guidance or as a "first step" towards getting your company into compliance. This monitoring program is based on sound safety and environmental concerns. We urge contractors to view their OSHA and DOT compliance efforts as a way to make their workplace safer for their employees.

Each contractor is still responsible for full compliance of all applicable State and Federal regulations.
